## PROFESSIONAL WETLAND SCIENTIST E—LETTER

### PWS Seal Now Available!

The SWSPCP is proud to announce that we have developed a new Professional Wetland Scientists Seal. The new seal is fully customized for each PWS. The seal includes your name and your certification number.

The seal memorializes your level of professional expertise, as a Professional Wetland Scientist, certified through the SWS Professional Certification Program, when sealed on such products as wetland delineations, mitigation plans, assessments, monitoring reports, peer reviews and other wetland science related documents.

### PWS and Outside Agencies

We are very proud to announce that the PWS program is gaining notoriety among local, state, and federal agencies. More and more, these agencies are specifically asking for PWS's to perform wetland work. We are very excited with this trend and hope that the PWS program will continue to be recognized as the leading wetland science certification.
